<sup>1</sup>This announcement was published as Service and Regulatory Announcements No. 98 (revised) of the Production and Marketing Administration in January 1951. The administration of these rules and regulations is now a function of the Agricultural Marketing Service.

**53.3a Instructions regarding inspection requirements concerning products to be graded.**

(a) *Definitions for determining compliance with inspection requirements.*—Under § 53.2 (1), products, to be eligible for grading service, must be prepared under Federal inspection or other official inspection acceptable to the Administrator. In determining such eligibility the following definitions shall apply:

(1) "Federal inspection" shall mean the meat inspection system conducted under the Meat Inspection Act of March 4, 1907, as amended (21 U. S. C. 71-91) and the regulations promulgated thereunder (9 CFR. 1.1 et seq.).

(2) "Other official inspection acceptable to the Administrator" shall mean any meat inspection system which (i) is conducted under the authority of laws, ordinances, or similar enactments of the State, county, city, or other political subdivision in which is located the plant at which the products are prepared; and (ii) imposes at least the requirements set forth in paragraphs (b) and (c) of this section: *Provided*, that, no such inspection system shall be deemed acceptable to the Administrator with respect to any particular plant in which products to be graded are prepared if he finds at any time that such requirements are not adequately enforced with respect to such plant.

(b) *Requirements as to manner of inspection and operation of plant.*—(1) The inspection shall be conducted by inspectors who are qualified veterinarians or who are supervised by qualified veterinarians. All such inspectors shall be employed and assigned by the State, county, city, or other political subdivision in which the plant is located.

(2) The inspection shall include ante-mortem and post-mortem inspection. The inspector shall examine each animal immediately prior to slaughter for the purpose of eliminating all unfit animals and segregating, for more thorough examination, all animals suspected of being affected with a condition which might influence their disposition on post-mortem inspection. The unfit animals shall not be permitted to enter the slaughtering department of the plant, and the suspected animals shall not be permitted to enter the slaughtering department until they shall have been found by veterinary inspection to be fit for slaughter. The suspected animals that are permitted to be slaughtered shall be handled separate and apart from the regular kill and given a special post-mortem examination.

(3) The post-mortem examination shall be made at the time the animals are slaughtered. The inspectors shall examine the cervical lymph glands, the skeletal lymph glands, the viscera and organs with their lymph glands, and all exposed surfaces of the carcasses of all cattle, calves, sheep, swine, and goats. Such examination shall be conducted in the slaughtering department of the plant during the slaughtering operations.

(4) All of the operations in the slaughtering and allied departments of the plant shall be conducted in a clean and sanitary manner. Facilities shall be provided for the prompt cleaning and sterilization of any contaminated equipment.

(5) All diseased or otherwise unfit carcasses and parts of carcasses, including the viscera, shall be condemned and removed from the slaughtering department of the plant in equipment designated for the purpose, and shall be destroyed for food purposes under the supervision of an inspector. The disposition of all carcasses and parts thereof, including the viscera, shall be under the control of a veterinary inspector.

(6) Each carcass and part thereof which has been inspected and passed shall be stamped with an identifying mark assigned by the State, county, city, or other political subdivision, as the case may be, under the supervision of the inspector, and the marking device shall be in the custody of the inspector at all times.

(c) *Requirements as to sanitation of plant and premises.*—

(1) (i) The plant and its facilities shall be well constructed, properly fitted and equipped for the purpose used, and so maintained that products intended for human food prepared therein will be clean, sound, healthful, and wholesome.

The floors of the plant shall be smooth and impervious and so laid as to drain freely and rapidly to sewer connections. Walls and pillars in the slaughter rooms must be tight, smooth, and free from crevices and, with other parts, shall be kept clean.

(ii) Rooms used for condemned products, inedible offal, hides, and other materials and supplies likely to contaminate or render products inedible shall be completely partitioned from edible product departments and rooms except for one aperture to the slaughtering department. This aperture shall be equipped with a close-fitting door and shall be of sufficient size to allow ready and free passage of materials designated as unfit for human food and all equipment used therewith.

(2) Drainage and sewage disposal must be adequate to maintain the plant and premises in a sanitary condition.

(3) Ventilation shall be sufficient to insure that the atmosphere in rooms where edible product is kept is free from obnoxious odors emanating from inedible tanks and offal rooms, catch basins, toilet rooms, hide cellars, refuse heaps, livestock pens, and similar sources. Lighting shall be adequately maintained in all rooms.

(4) The plant shall be provided with ample supplies of potable hot and cold water, with outlets conveniently located and equipped with faucets for hose connections, for ready use during slaughtering operations and for cleaning. Wash basins equipped with running hot and cold water, soap, and towels shall be placed in or near the dressing rooms and at such other places in the establishment as may be essential to insure cleanliness of all persons handling products. Water for sterilizing purposes shall be maintained at a temperature of at least 180° F.

(5) Toilet rooms shall not communicate directly with any room in which animals are killed or food products thereof are processed, handled, or stored. Dressing room facilities must be adequate for cleanliness and convenience.

(6) All departments in the plant must have adequate protection against flies, rodents, and other vermin. However, the use of poisons for any purpose in rooms or compartments where any unpacked articles intended for human food are stored or handled is forbidden except under such restrictions and precautions as the chief veterinary inspector in charge of inspection at the plant may require. So-called rat viruses shall not be used in any part of the plant or its premises.

(7) Equipment and utensils used in the plant must be made of such material and be so constructed as to be readily and thoroughly cleaned, and shall be kept clean and in sanitary condition. Facilities must be provided for cleaning and sterilizing equipment, tools, and utensils.

(8) Barnyards, stock runs, pens, loading docks, and other facilities appurtenant to the plant shall be kept clean. No nuisance shall be allowed on the premises, such as fly breeding places, dead stock, rat infestation, cockroach infestation, rubbish heaps, decomposing animal material, polluted water supply, insanitary drainage disposal, leaking floors, or the like.

(d) *Definitions made applicable.*—Definitions contained in section 53.2 of terms used in this section shall apply to such terms.

Published notice shall be given of the denial or withdrawal of grading services from any designated market or designated location and notice shall be given to the applicant of the denial or withdrawal of grading services to or from such applicant.

## GRADING SERVICES

**53.6 Kind of service.**—Examination, identification, and certification of products may be made according to the Federal standards for class, grade, other

quality designation, quantity, and condition, or according to specifications approved by the Administrator for this purpose.

**53.9 How to obtain grading service.**—An application for grading service may be filed in an office of grading or with an official grader. It may be made orally (including by telephone), in writing, by telegraph, or by other means of communication. If made orally, the official grader or the office of grading may require that it be confirmed in writing or by telegram stating the facts required by section 53.10.

**53.10 Form of application for grading service.**—Each formal application for grading service shall include such of the following information as may be pertinent: (a) The date of the application; (b) the description and location of the product to be graded; (c) the name and post office address of the applicant or of the person, if other than the applicant, making the application in his behalf; (d) the interest of the applicant (except an official of the Federal Government or of a State government making application in his official capacity) in the product; (e) the name, post office address, and interest of all other known parties, except carriers, in the product; (f) the shipping point and destination of the product; and (g) the type of service desired.

**53.11 When application for grading service deemed filed.**—An application for grading service shall be deemed filed when delivered to an established office of grading. Records showing the date and time of filing shall be made and kept in such office.

**53.12 Denial or withdrawal of grading service for cause.**—(a) Any application for grading service may be rejected, or grading service may be suspended, by the official grader in charge of the office of grading in which the application for service is filed, for noncompliance by the applicant with the regulations prescribing the conditions on which the service is made available, or for any of the causes set forth in paragraph (b) of this section. The official grader shall immediately notify the applicant of such rejection or suspension and the reasons therefor, and through his immediate supervisor shall report his actions, with the reasons therefor, to the Administrator, for informal settlement of the controversy. If such procedure fails to dispose of the matter, the Administrator, without further hearing, may deny the benefits of the acts to the applicant for noncompliance with this subpart prescribing the conditions on which the service is made available; however, the applicant shall be accorded an opportunity for a hearing before a proper officer prior to final denial of the benefits of the acts for any of the causes enumerated in paragraph (b) of this section. Pending final disposal of the matter, grading service may be withheld from the applicant by the Administrator without hearing.

(b) Any willful misrepresentation or fraudulent or deceptive practice made or committed by any applicant for grading service in connection with the filing of any application for grading service; any of the activities outlined in section 53.25; any interference with or obstruction of any employee of the Department in the performance of his duties under the regulations, by intimidation, threats, assaults, or any other improper means; and any willful violation of the regulations or of the supplementary instructions issued by the Administrator may be deemed sufficient cause for denying any further benefits of the acts to the person found guilty thereof after opportunity for a hearing has been accorded him.

(c) All final orders in any proceeding to deny the benefits of the acts to any person (except orders required for good cause to be held confidential and not cited as precedents) shall be filed with the Hearing Clerk and be available to public inspection.

**53.13 When application for grading service may be withdrawn.**—An application for grading service may be withdrawn by the applicant at any time before the service is performed, upon payment of any expenses already incurred in connection therewith.

**53.14 Authority of agent.**—Proof of the authority of any person requesting grading service on behalf of another may be required at the discretion of the official grader.

**53.15 Accessibility of product.**—The applicant shall cause the products on which services are requested to be made easily accessible for grading and to be so placed, with adequate illuminating facilities as to disclose their class, grade, other quality designation, quantity, and condition.

**53.16 Basis of service.**—Examination, identification, and certification for class, grade, other quality designation, quantity, condition, or compliance with specifications, shall be based upon the official or tentative standards of the Department of Agriculture, Federal specifications, or such specifications of other public or private agencies using the service as have been approved by the Administrator.

**53.17 Order of grading.**—Grading services shall be rendered in the order in which the applications are received, except that precedence may be given to requests made by the Federal Government, a State, county, or municipality, and to requests for appeal grading under section 53.30.

**53.18 Financial interest of grader.**—No official grader shall grade any products in which he is directly or indirectly financially interested.

**53.19 Certificates, issuance.**—The official grader shall prepare, sign, and issue official certificates covering products graded by him unless through special arrangements approved by the Administrator this is not required, in which case complete records of the grading shall be furnished the Service.

**53.20 Certificates, form.**—Certificates shall include as much of the following information as may be applicable: (a) the number of the certificate; (b) name of designated market and place of grading; (c) date of grading; (d) names and addresses of applicant, party in possession, and shipper and buyer if known; (e) the true class, grade, other quality designation, and condition of the products graded; (f) the exact number of carcasses, sides, quarters, cuts, and packages of products graded by classes and grades; (g) if previously graded, reference to previous certificate by number; (h) if rejected, reason for rejecting; (i) the weight of the products of each class, grade, or other quality designation, and the total weight of the lot; (j) the amount of time employed by the official grader and the amount of fees and expenses to be charged to the applicant; (k) name of official grader or graders; and (l) additional facts necessary to describe fully the condition, class, grade, other quality designation, or quantity of the products.

**53.21 Certificates, disposition of.**—The original certificate and not to exceed two copies shall be delivered or mailed immediately to the applicant or a person designated by him. One copy shall be filed in the office of the official grader and one copy forwarded to the Administrator. Copies of certificates shall be kept on file until other disposition is ordered by the Administrator. Copies will be furnished to other financially interested parties as outlined in section 53.35 (f).

**53.22 Certificate, advance information concerning.**—Upon request of any applicant, all or any part of the contents of the certificate concerning products covered by his application may be transmitted by telegraph or telephone to him, or to any person designated by him, at his expense.

## GRADE IDENTIFICATION

**53.23 Evidence of grade.**—As evidence to applicants, purchasers, consumers, and others of the class, grade, other quality designation, or condition of products graded under the acts, all such products or the immediate and shipping containers thereof shall bear a mark or marks which shall show in plain, prominently displayed characters the true grades of such products in accordance with the provision of this section.

(a) *Products officially graded shall be identified for grade.*—Products graded under the acts and in accordance with the regulations in this part shall be stamped, branded, or otherwise marked with an appropriate grade-identifying device bearing a name or symbol to show the true grade of such products according to the United States standards or their compliance with specifications, except that such marks may not be required when an applicant only desires official certificates for class, grade, other quality designation, quantity, or condition.

(b) *Supervision of grade identifications.*—Official graders shall stamp, brand, label, tag, seal, or otherwise identify the correct grade on products or supervise such operations when they are performed by others.

(c) *Grade-identifying devices.*—The Administrator may authorize or approve devices for branding, stamping, or imprinting the official grade on products or the

containers thereof or for indicating the compliance of such products with specifications.

(d) *What grade-identifying device shall show.*—Each grade-identifying device shall bear a name or appropriate symbol, approved by the Administrator, clearly indicating the grade of the product as determined by an official grader, and such other marks or symbols as may be required by the Administrator for the proper identification of the product and the service rendered.

**53.24 Custody of grade-identifying devices.**—All grade-identifying devices, including those indicating compliance with specifications approved by the Administrator, shall be kept in the custody of the Service and accurate records shall be kept by the Service of all grade-identifying and other related devices. Each office of grading shall keep a record also of the devices assigned to it. Such devices shall be distributed only by authorized employees of the Service who shall maintain complete records of same.

**53.25 Alteration or imitation of grade-identifying devices, marks, and certificates, etc., forbidden.**—No brand, stamp, tag, or other grade-identifying device, or word, symbol, or legend thereof, or certificate or grade label authorized or approved under this subpart, shall be altered, defaced, imitated, or simulated in any respect or used for the purpose of misrepresentation or deception. (See section 53.12.)

### APPEAL GRADING

**53.26 When appeal grading may be made.**—A request for appeal grading may be made by any financially interested party whenever he is dissatisfied with the class, grade, other quality designation, quantity or condition shown on the officially graded and identified product or stated in the applicable certificate.

**53.27 How to obtain appeal grading.**—Appeal grading may be obtained by filing a request for same with the Administrator (a) direct, or (b) through the official in charge of the meat grading service at the nearest designated market, or (c) through the grader who did the original grading. The request for appeal grading shall state the reasons therefor and may be accompanied by a copy of any previous grading certificate or report or any other information which the applicant may have received regarding the product at the time of the original grading. Such request may be made orally (including by telephone), in writing, by telegraph, or otherwise. If made orally, the person receiving the request may require that it be confirmed in writing in the same manner as specified in sections 53.9 and 53.10 for obtaining grading service. Requests for appeal grading received through the office of grading or an official grader shall be transmitted promptly to the Administrator for instructions.

**53.28 When appeal may be refused.**—If it shall appear that the reasons stated in a request for appeal grading are frivolous or unsubstantial, or that the quality or condition of the products has undergone a material change since the original grading, or that the products cannot be made accessible for thorough examination and grading, or that the identity of the products has been lost, or that the regulations prescribing the conditions on which the grading service is made available have otherwise not been complied with, the request for appeal grading may be denied by the Administrator. A request for appeal grading may also be denied, after opportunity for hearing before a proper officer has been accorded the applicant, for any of the causes enumerated in section 53.12 (b), and pending investigation and hearing the applicant may be denied the benefits of the acts by the Administrator without hearing. The provisions of section 53.12 (c) shall also apply to final orders granting or denying appeal grading service.

**53.29 When appeal may be withdrawn.**—A request for appeal grading may be withdrawn by the applicant at any time before the regrading has been performed upon payment of any expenses incurred by the Service in connection therewith.

**53.30 Order in which appeal gradings shall be made.**—Appeal gradings shall be performed as far as practicable in the order in which requests are received. They shall take precedence over all other pending grading requests.

**53.31 Who shall make appeal gradings.**—Appeal grading of products shall be made by official graders designated therefor by the Administrator or by the person in charge of an office of grading, when so authorized by the Administrator, and such grading shall be conducted jointly by two official graders when practicable. No official grader shall pass upon the correctness of his own grading or of a certificate issued by him.

**53.32 Appeal grading certificate.**—Immediately after an appeal grading has been made, a certificate designated or marked as “appeal grading certificate” shall be prepared, signed, and issued referring specifically to the original certificate and stating the class, grade, other quality designation, quantity, or condition of the product as shown by the appeal grading. In all other respects, the provisions of sections 53.6 to 53.22 shall apply to such appeal grading certificates except that, if the applicant for appeal grading be not the original applicant, a copy of the appeal grading certificate shall be mailed to the original applicant.

**53.33 Superseded certificates.**—The appeal grading certificate shall supersede the original grading certificate, which, thereupon, shall become null and void and shall not thereafter represent the class, grade, other quality designation, quantity, or condition of the product described therein. If the original and all copies of the superseded certificate are not delivered to the person with whom the application for appeal grading is filed, the officer (or officers) issuing the appeal grading certificate shall forward notice of such issuance and of the cancellation of the original certificate to such person as he (or they) may deem necessary to prevent fraudulent use of the cancelled certificate.

**53.34 When request for regrading is not an appeal.**—Grading requested to determine the condition of products which have been graded previously and which may have undergone material change since the original grading, and regrading requested for the purpose of obtaining an up-to-date certificate and not involving any question as to the correctness of the original certificate covering the products in question shall not be considered appeal grading within the meaning of sections 53.26 to 53.34.

### CHARGES FOR GRADING SERVICES

**53.35 Fees and other charges for grading services.**—Fees and other charges equal as nearly as may be to the cost of the grading services rendered shall be assessed and collected from applicants as follows:

(a) *Fees based on hourly rates.*—Except as otherwise provided in this section, fees for grading services shall be based on the time actually required to render the services, including the time required for the travel of the official grader in connection therewith, and shall be at hourly rates prescribed from time to time by the Secretary. A minimum charge for one-half hour shall be made notwithstanding that the time required to perform the services may be less than thirty minutes.

(b) *Fees for grading services in unusual circumstances.*—The Secretary may, in lieu of the fees that would be assessed under paragraph (a) of this section, establish other reasonable charges for grading services to be rendered in unusual circumstances, at rates that in his judgment will equal as nearly as may be the cost of the services.

(c) *Charges under cooperative agreements.*—Charges for grading services under cooperative agreements shall be those prescribed by the Secretary under paragraph (a) of this section, unless otherwise stipulated in the agreements.
